Dear Hiring Manager,

I'm excited to be applying for the Design Intern position at EKR. I understand you're currently launching a new website, and I believe my skills provide a significant advantage for creating a successful launch. As someone who is currently a college student and up to date on the newest practices and standards, I'm thrilled at the opportunity to bring my unique style and passion for design to this position.

During my previous role at Womply, I was responsible for reporting to a design team over a technology product, from software UI and features. This role provided significant insight into the full product lifecycle, which allowed me to deliver more effective and impactful designs that would translate to the web. Due to this I was able to lead over 6 main features in the actual software.

In addition to UI/UX, I have also expanded my portfolio to include photography and tech support. I have started my own freelance photography company that does photography for companies to create content to put on their websites.

Thank you for your time and consideration. I'm looking forward to learning more details about the Design Intern at EKR. I'm eager to meet with you and discuss how I can use my skills to bring a new look to your marketing materials and ultimately increase your product sales.

Sincerely,

Jordan Powell
