

Wildlife SOS

Answering the Call for Help

DONATE

By volunteering at the Wildlife SOS Rescue Facilities, you will make a major contribution to the welfare of bears and elephants in India. The majority of the programme fees will go directly to the Centre thus providing a critical source of funding for future work. Working with the local community and the inspiring people who run Wildlife SOS is an opportunity of a lifetime!

The European Union can help India and South Asia protect and retain their wildlife by increasing penalties and enforcing more stringent punishments for wildlife trafficking. We are losing species like sloth bears and tigers for body parts, pangolins for scales & bush meat, elephants for ivory at a rapid scale. The damage if not controlled will be soon irreversible"

Illegal Trafficking

The European Union can help India and South Asia protect and retain their wildlife by increasing penalties and enforcing more stringent punishments for wildlife trafficking. We are losing species like sloth bears and tigers for body parts, pangolins for scales & bush meat, elephants for ivory at a rapid scale. The damage if not controlled will be soon irreversible"

About US

Wildlife SOS was established in 1995 by a small group of individuals inspired to start a movement and make lasting change to protect and conserve India's natural heritage, forest and wildlife wealth. Today, the organisation has evolved to actively work towards protecting Indian wildlife, conserving habitat, studying biodiversity, conducting research and creating alternative and sustainable livelihoods for erstwhile poacher communities or those communities that depend on wildlife for sustenance.
