

# WEB DESIGN

SLCDJ.com was my first internship website. It was used from a template as a starting point then designed by me. I am currently the web administrator of this website and put more than 40 hours of work into this website alone.

Marriottentertainment.com is my second internship website that I am a web administrator over. This website was done with me and my partner Jared Freeman. This website is a coorporate webstite which links to the SLCDJ website. This was also used with a starting template and made on Wordpress.
